

# NORTHSHORE HAMILTON – CEDAR ROAD & MACARTHUR AVENUE PROJECT

CONSTRUCTION UPDATE  
ISSUE NUMBER 3 – September 2021

## Night Works Notice

We wish to advise of some upcoming nightworks along MacArthur Avenue South, see figure 1 for more details.

### What will the infrastructure works involve?

To cater for the future growth and development of the area it has become necessary to carry out low impact nightworks to install a new sewer network. The works will involve:

- Trenchless installation of sewer pipe
- Pumping and removing surface water from the site.

### Why are night works required?

The ability to seamlessly continue work from the day to the evening whilst boring reduces both time and risk with regard to this element of work.

### Plant and Equipment used include:

- Tunnel boring machine
- Submersible pump running off generator
- Excavator
- Tip Truck

### When will these changes take effect?

Night works will begin the week of 6<sup>th</sup> September 2021, between 6:00pm and 6:00am for approximately 8 weeks.

### How are we minimising the disruption?

- 'Silenced' generators will be used to reduce white noise
- Noisy activities will be planned to be undertaken as early as possible in the shift
- Baffling screens will be used around work site where practical to reduce noise
- Plant, equipment and machinery will be serviced as per manufacturer's recommendations to ensure they are in good working order.
- Plant, equipment or machinery emitting excessive noise levels will be removed from site until repaired, or silencing/baffling device installed.
- Use of horns, bells, beepers and other audible signals will be minimised as much as practical.

We thank you in advanced for your patience and understanding during these works.
